## What You Need To Know:

### Tools:

Required:

\*Phillips Screwdriver

\*Pencil

\*Drill with 1/4" Bit

Helpful:

\* 1/4" Tile Drill Bit

\*Level

### Important Notes:

Be sure to read instructions thoroughly before beginning installation. Do not overtighten any connections or damage may occur.

### Safety Tips:

This item is NOT designed for use as a grab bar. Do not mount in locations where product is likely to be used as a grab bar.

Use caution when drilling into walls to avoid electrical and plumbing lines hidden within wall.

### Maintenance:

Clean with a soft, damp cloth only. Do not use scrub pads, detergents or cleansers as they may harm the protective finish of your Slide Bar

① Remove end caps from both ends of Slide Bar assembly.

2x

② Place Slide Bar assembly on to wall in the desired mounting position. Take care that the Slide Bar is mounted in a vertical position. Using a pencil, mark drill hole locations for both end brackets.

2x

③ Drill 1/4" hole in marked locations. If drilling into tile, be sure to use a drill bit designated for tile. If mounting directly into stud or wood wall, secure lower end bracket to wall with mounting screws without drilling holes.

2x

④ Insert plastic anchors into drilled holes and press in until flush with wall.

2x

⑤ Separate Lower End Bracket from Slide Bar Assembly. Secure lower End Bracket to wall using Phillips Screwdriver.

⑥ Instal Slide Bar Assembly to mounted Lower End Bracket.

7 Align Upper Bracket to Plastic Anchor. Secure Upper Bracket to wall using Phillips Screwdriver.

8 Re-install End Caps removed in Step 1.
